FREE shipping on qualifying offers. Based on the most recent standards from ASHRAE, the sixth edition provides complete and up-to-date coverage of all aspects of heating

[hvac control system wikipedia](#)

HVAC (Heating, Ventilation and Air Conditioning) equipment needs a control system to regulate the operation of a heating and/or air conditioning system. Usually a sensing device is used to compare the actual state (e.g. temperature) with a target state. Then the control system draws a conclusion what action has to be taken (e.g. start the blower).
